### **Product Informations**

---

**Format:** Preservative Free

**Product Type:** Serum

**Applications** This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

	Yes	No	Not Determined	Suggested Dilution
<b>Immunohistology - Frozen</b>	▪			
<b>Immunohistology - Paraffin</b>	▪			
<b>Immunoassay</b>	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**Product Form** Whole serum - liquid

**Preparation** Normal mouse serum, 0.2um filtered. Prepared from barrier mice which are screened for infectious agents.

**Preservative Stabilisers** None present

**Storage** Store at -20°C only.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the product. Should this product contain a precipitate we recommend microcentrifugation before use.

**Guarantee**            18 months from date of despatch.
